POOR OUTLOOK IN ALASKA.

CONDITIONS IN KLONDIKE REGIONS SET FORTH IN OFFICIAL REPORTS.

RELIEF WORK OF THE WAR DEPARTMENT IN WINTER OF 1897-198 DETAILED-COST OF

LIVING AND RATES OF WAGES. Washington, Feb. 19 .- Secretary Alger has transmitted to Congress a complete report on the relief work of the War Department in the Klondike country, undertaken under act of Congress, as a result of reports that ext teme distress among the miners followed the influx to the gold country in 1897-98. It embraces the detailed reports of Cap-tain P. H. Ray and Lieutenant W. P. Richardson, who had charge of the relia. work. These reports give a graphic picture of the conditions in the Klondike, its possibilities as well as its hardships. with that candor characteristic of military reports. Some time has elapsed, however, since the reports were written, owing in part to the difficulties of official communication between the Klondike and Washington. Many of the military reports have not before been given, and as a thole they present comprehensive review of the Klondike situation. Secretary Alger says in his letter to Congress:

Secretary Alger says in his letter to Congress:

In accordance with the requirements of Section 2 of the act of December 18, 1857, directing the Secretary of War to make a report in detail to Congress at the beginning of its next regular session, as to all purchases employment, sales and domations or transfers under the provisions of the act for the relief of people in the mixing regions of Alaska, I have the honor to state that the disburgements from the appropriation of \$200,000 have been made for relief subsistence supplies, means of transportation, employment of labor and other incidental expenses in a sum aggregating \$142,000, as appears from the several statements hereto attended.

There was expended from this appropriation of

appears from the several statements hereto attended.

There was expended from this appropriation of \$200,000, for subsistence stores and other miscellaneous property, the sum of \$25,582. Upon the abandonment of the relief expedition there was transferred from these stores for the Army and Laplanders, and issued to destitute people in Alaska, supplies amounting to \$16,482, etclusive of the \$31,772 paid to the Alaska Commercial Company sud the North American Transportation and Trading Company, for supplies issued from their warehouses to the destitute by Captain Ray, Under the authority granted to the Seretary of War by the act, subsistence supplies in the amount of \$7,393, and quartermasters supplies amounting to \$10,000, and \$10,000,

WHAT THE REINDEER COST.

The 387 head of reindeer were purchased and for \$65.852 or about \$125 a head. The value. therefore, of the 124 head delivered by the War De-partment to the Department of the Interior as

There remains on hand of said appropriation the um of E7.48644 distributed as follows: The sum of except in the Treasury, he sum of \$18.785 is in the hands of Major T. E. True, I mired States Army, apply Quartermaster, Washington, D. C., the official whom the majority of the accounts have sen settled the sum of \$8.384 is in the hands of airman Brothers, London, to the credit of this copristion, and the sum of \$84 is in the hands of the United States Consul at Christiania, Norway, there is also filled in the department a claim for spose of provid-stores, supplies

For the supplies furnished to the destitute people and miners from the stocks of these commercial companies caprain Ray took notes from many of this who received relief paradia to the Government of the United States and by him delivered to the War Department.

THE OUTPUT OF GOLD AT DAWSON.

The last of the military reports is from Lieutenant Richardson, and is dated July 7 last. It sums up general conditions as follows:

The output of gold from the bawson district for he last winter's work (1857-18) will not exceed \$10,-00,000, more conservatively estimated at from 1,5-0,000 to \$5,000,000. I should judge the population of Dawson to be, at the time I left, from 12,000 to \$5,000, by far the larger part of whom are still living

on, which obtain with slight modification at and other points, are \$2.50 for the plainest cham and eggs, bread, butter and coffee), teak costs extra; this is soid to the restautal \$2 a point. A stew of fresh cysters, \$2, taurant while cord gives; Champagne, \$50 a taurant while cord gives; Champagne, \$50 a and driver earn \$10 an hour; a good cook, day, ordinary labor, \$1.50 an hour. These impress me as out of all proportion to the tot money from the country, the present lance of supplies there and the limited field of

definition.

Only a small proportion of the people now there can find steady employment, and that phase of the situation is growing daily worse. The streets are throated with a crowd of file men. Many belong to the class who are not looking for work, and these, many of whom will doubtless float down into our territory, will become a troublesome and dangerous element as the winter approaches, unless controlled. It must be said to the credit of the canadian mounted police that Dawson has been and is to-day, with all its motley population and vicious elements, a most orderly and law-abiding fown. Contrary to report, I found comparatively little sickness there.

prospecting, the new leads being worked, the new towns springing up, etc. As showing climatic conditions to be contended with, he says:

SIXTY-TWO DEGREES BELOW ZERO.

The following average temperatures were taken in the winter and spring:

November, 187, 18 degrees F. below, taken 8 a. m. December, 187, 8 degrees F. below, taken 8 a. m. January, 188, 24 degrees F. below, taken 8 a. m. February, 188, 29 degrees F. below, taken 8 a. m. April, 1898, 36 degrees F. above, taken 12 m. April, 1898, 36 degrees F. above, taken 12 m. May, 188, 49 degrees F. above, taken 12 m. The codest single day was January 16, when the thermometer registered 62 degrees below zero. The codest period of seven days was from February 16 to 22, when the thermometer showed an average of 50 1-7 degrees below. No severe weather was experienced after the end of February.

In Captain Ray's last report, dated May last, he

said in part:

I deem it of the greatest importance for the development of the country that roads should be concert, so as to enable the reople to enter the country, not only from the Yukon to the open sea in our own country, which is of the greatest importance, but to enable miners and prospectors to get into the interior with their supplies. Under existing conditions persons can enter the country only by the one great highway—the Yukon Hiver—and they cannot hope to be landed at any point in Aiaska earlier than July 1.

The gold-bearing districts are from fifty to one hundred and fifty miles back from the main stream. There are no summer trails, except foot trails, and provisions and mining tools can only be transported on the backs of men.

provisions and mining tools can only be transported on the backs of men.

I do not find anything either in Alaska or the Northwest Territory to justify the great rush of people to that country or the enormous investment now being made in transportation, trading and mining companies. In the Northwest Territory no discoveries of extraordinary richness have been made since that of the Kiondike, and the chaims are almost entirely confined to Bonanza. El Dorado, Dominica, Honka and Sulphur creeks, with a few claims on Bear Creek. In this distinct all rich claims are well known and held at high prices, and, while the whole country has been staked, it has been done for speculative purposes, and no work is being done, except such as is necessary to hold a title until it can be sold to the unwary newcomer or disposed of in the States for corporation schemes. Captain Constantine, of the Canadian Northwestern mounted police, is my authority for denouncing the movement as a fraud.

BIG PAY OFFSET BY HIGH COST OF LIVING.

BIG PAY OFFSET BY HIGH COST OF LIVING. In the absence of any other industry, except cutting wood for the river boats, I do not see anything in the future for over 90 per cent of the ment and suffering. Even those who obtain em-ployment at \$150 an hour find that, after deducting cost of food, packing, candles, etc., they do not enough to tide them over the idle season. Up to

silver have been discovered in North Alaska, so far as known.

I am now fully satisfied that in the near future Alaska will be the source of great wealth, but the development will necessarily be slow, owing to the elimatic conditions. I recommend the early introduction of horses, mules and cattle, and extra inducements should be held out for the development of agriculture, in the valley of the Lower Yukon especially. Wild hay can be obtained there in great abundance, and oats, barley and spring wheat can be successfully cultivated, as well as potatoes, all of which would be required for many years to meet the local demand, and by reducing the cost of transportation and food, render it possible to profitably work a large per cent of the mines, now lying idle.

But few of the people now entering the northern part of the territory will ever become a factor in its permanent development. They must pass away

before the time when the wealth of the country will become known and developed. To promote this, I recommend that several well-equipped parties be put in the field and a thorough geographical and geological exploration of the country be made, so that men of ordinary means will be able to engage in the work of prospecting and mining. At present it recuires considerable capital to first explore the country for a practicable route to transport supplies before any work can be done in prospecting. porting.

The ruling rate of interest at Dawson is from 19 to 12 per cent a month, which is the best exemplification I can give of the speculative condition of the finances of that country.

PERILS OF YUKON COUNTRY. EXPERIENCES OF A RELIEF PARTY WHICH NEARLY STARVED.

Seventy Mile River, Alaska, Dec. 20, by way of Scattle, Wash., Feb. 18.—Lee Pate, Julius Sternberg and J. A. Ritchie, of Montreal, have returned here from an unsuccessful effort to relieve a party of prospectors at the head of Porcupine River. They were gone over six weeks, and suffered semistarvation, as they took provisions for thirty days only. For six days they were practically without food. All their snowshoe lacings and spare skins were fed to the dogs. Ritchie, who led the relief party, had been a member of the party that was to be rescued. It consisted of Ritchie, D. A. McPhee, of Winberg; Ray Moffatt, of Pembroke, Ontario; Philip Billneu, of Duluth, and Alec Holmes, of Fresno, Cal.

They went in over the Edmonton route, and last fall found themselves at the head waters of the Porcupine River, too late to descend in boats. Without a guide they started across the country to the Yukon, two hursired miles away. Holmes to the Yukon, two hutsired miles away. Holmes froze both feet at the outset. Believing himself unable to continue the lourney, he decided to go into camp on Fish Branch of the upper Porcusine, and trust to getting enough salmon through a hole in the lee to keep off starvation until help should come. Mofatt and Bilhou remained with Holmes. Ritchte and McPhee, with four dogs, pushed on for relief. Five days later their food gave out, and they were reduced to the necessity of toosting five beaver hides and eating them one after the other. After the end of ten days they reached a cabin at the mouth of Big Sheep Creek, where they found Pate and Sternberg.

the mouth of Big Sheep Creek, where they found Pate and Sternberg.

Pate Sternberg and Ritchle started in a few days to relieve Holmes and his companions, with the result above stated. They found the camp at Fish Branch, where Moffatt had left a note saying that they had been unable to replenish their supply of game or fish, and, fearing that assistance might be delayed in reaching them, had decided to attempt the return trip to La Pierre Souse, some two hundred miles down the Porcupine. Ritchle thinks they were able to make the trip, though they started with so little food that they would have to cat some of their dogs, of which they had three.

LIEUTENANT CASTNER'S EXPEDITION. orted from Norway to Haines Mission, Alas- HE FAILED TO FIND AN ALL-AMERICAN BOUTE TO THE YUKON.

Seattle, Wash., Feb. 19.-Advices from Dawson say that Lieutenant Castner, of the 4th United States Infantry, who started almost a year ago from the southern coast of Alaska to explore the interior and find, if possible, an all-American trail to the Yukon, has arrived here. Finding the trail they had believed to exist impassable, Lieutenant ization. They put their provisions, guns.etc., on a raft and set out on the Tanana River. The raft was wrecked the second day, and all the provisions. rifles, axes, etc., were lost. All that was saved

With the rope another raft was built, and for stx days the three men floated down the river, living on berries and rose apples. They were without

STEWART HEIRS AGAINST ASSESSORS.

A REPORT ON THE TUCKAHOE MARBLE QUARRY

An important and interesting litigation which involves the town of East Chester, Westchester county, and the helrs of the estate of A. T. Stewart comes up in court in White Plains this week. Many years ago Mr. Stewart contracted with a cupied by the Manhattan Club. The firm, if it failed to furnish the material, was to forfeit a large sum of money. The Civil War came on about that time, and the marble company was obliged to break its contract, and give its quarries and 150 acres of land surrounding them to Mr. Stewart.

At Mr. Stewart's death this property was vested in Prescott Holl Butier, the New-York lawyer, and about fifteen of the Stewart heirs, who leased it to

uit to recover the money. This processory by the failure of the owners to rotest on grievance day.

The town authorities settled by paying back a arge portion of the money, but the following year sought to retallate by increasing the assessment to \$180,000. Counsel for the helrs appeared on grievance day last year and formally protested. The protest was disregarded, and he appeared before justice Keogh, in the Supreme Court, who issued a writ directing the assessors to bring the rolls into court, that they might be received. The Justice, finding that testimony was necessary, appointed M. J. Tierney, of New-Rochelle, referee, Mr. Tierney held about a dozen hearings in Tuckahoe and Mount Vernon, in which many witnesses were called, and will file his report this week. He finds that the properties highly overvalued and assessed at a higher propertion than the adjoining land, and orders the assessment reduced from \$180, 000 to \$20,000.

nderstood that Supervisor H. D. Lent. rep-It is understood that Supervisor H. D. Lent, representing the assessors, will oppose a motion to confirm the report when it comes up before Justice Keogh next Thursday or Friday.

TROUBLE IN THE C. F. U.

RUMPUS OVER THE AWARDING OF CONTRACTS

terday, and the delegates present had a lively time for a couple of hours. The trouble started over the awarding of contracts for printing the official journal of the Miscellaneous Section, and the official journal last Labor Day of the old Central Labor Union. There has always been considerable money made out of the journals, and many enterprising men have sought the privilege of publishing them. This privilege has usually been sold to the highest bidder. Two weeks ago charges were brought that the awarding of the contract for printing the journal of the Miscellaneous Section had been irregular. It was said that two contracts had been made, one of which was 10 John O'Conneil for \$100. He gave the money in the form of a check, and was afterward made custodian of the check.

A committee was appointed to investigate, but some of the delegates declared that the report which the committee was appointed to investigate, but some of the delegates declared that the report which the committee was appointed to investigate, but some of the delegates declared that the report which the committee brought in was a whitewashing one. The report was referred back to the committee, with instructions to probe the matter to the bottom.

Cutters' Union, reported in behalf of the com-cey esterday that not only had O'Connell paid in form of a check, but that he had also prom-to furnish a banquet for the Miscellaneous does.

size in form of a check, but that he had also promised to furnish a banquot for the Miscellaneous Section.

Delegate Prince declared that the committee was afraid to give out all the facts. He declared that the check had been returned to O'Connell, and that he could prove that something was wrong. He refirerated that the committee hadn't acted honostly. 'It is a lie!' shouted Delegate Dones.

A number of the delegates had fight in their cyes and a fively time followed. Delegate Duly moved that Delegate Prince be suspended until he brought proof that his charges were well founded. Chairman Earr refused to entertain the motion.

It was finally decided that the whole thing should be referred back once more to the committee, which was enlarged by the appointment of two more members. It was then thought that the trouble was over, but Delegate Farley capped the chimax by reading a report of the last Labor Day Committee, which showed that of the receipts to the credit of the old Central Labor Union, now the Central Federated Union, 500 could not be collected. Of this amount, he said, \$280 was owed by James P. Architald, delegate of the Paper Hangers Union, who had the contract for publishing 'The Labor Day Journal.'

Delegate Farley said that the committee had tried hard to collect this money, but that Architald had declared that he had made no money out of the journal and could not yet make good the amount he owed.

On motion of Delegate Warner it was resolved to take legal steps if necessary to obtain the money due the union.

WESTCHESTER COUNTY.

MOUNT VERNON.

Although the city election will not be held until spring the leaders of both parties are now busy nominate and elect. Fortunately Mount Vernon communities of Westchester County, and the taxcommunities of Westchester County, and the taxavers, while they have been assessed liberally for
moreovements, have the satisfaction of knowing
that they have received about what they have paid
or, even if the price has occasionally been exorbiant. The success of Monat Vernon as a municiality is due to the lively interest the citizens take
a local politics. They not only turn out at the
rimaries and pells, but after they have elected
heir candidates they attend the meetings of public
solies to hear how local issues are discussed and
cerided. If there is anything wrong an indignation
feeting is called and the proceedings are carefully
restilgated. This is shown in the charges of imeachment that have been brought against Mayor
siske on some of his recent sirect-railway dealings,
a some communities Mayor Fiske's actions would
ave been forgotten or husbed up in a few days,
or the Mount, Vernon people have had it out on
the spot, and there is a much better feeling than
They had sursed their grievances in secret. With
such a system in actual operation it is not often
and a really dishonest or incapable man gets into
the Board of Aldermen. Aldermen Dollard, Cline,
towe, Anderberg and Wallender, whose terms exire this spring, have given good service, and it is
robable that all of them will be renominated if
they desire it. Alderman Howe has been the leader
a the Republican elde, and, although the youngest
tember of the Board, has made a strong showing
or a party overwhelmingly in the minority. Alderten Dollard and Cline, although Democratis, have
ofted with the Republicans on several occasions
hen the welfare of the public seemed at Issue,
he only other city officer to be elected is an asasor, to succeed Richard Seder.

A meeting of the Citizens' Union is called for this evening to take action on proposed amendments to the village charter. Agitation in regard to the for improving streets and laying sewers, was defeated for improving streets and laying sewers, was defeated by the members of the union themselves, and the section will remain in the revised charter with only a trifling amendment. This was the principal point on which a revision of the charter was urged, and its promoters having falled to convince people that the decument as it stands is seriously defective, and having weighted the revision down with a chause instituting a high property qualification for the president and trustees, it is not now thought that the amendments will stand much chance of being approved by the Legislature, while the really destrable amendment abolishing the ward system of electing trustees cannot now be passed in time to be of any avail this year, as the charter election has already been called for Tuesday, March 14.

TARRYTOWN.

The police are searching for some trace of Harrison Howard, the negro who shot and killed John Ledwith in his store late on Saturday night. Although they were promptly informed, and were immediately on hand, the murderer cluded them in dime, and the marble company was obliged to break its contract, and give its quarries and 130 acres of land surrounding them to Mr. Stewart. At Mr. Stewart's death this ; toperty was vested in Prescott Holl Burier, the New-York lawyer, and about affect of the Stewart helrs, who leased it to Norcross Brothers, who quarried the marble from it to build the New-York Life and Metropolitan Life insurance buildings.

Up to 1897 the property had been assessed at \$30,000, but the assessors then suddenly jumped it to build the New-York Life and Metropolitan between the suddenly jumped it to build the seeds in the second of the council Frederick W. Sherman, went to East Chester with the tax due (about \$2,000) in cash, and allowed it to be seized by a constable. He then formally presented against the constable's action, and began a widow and one child. He was about thirty-five years old. The Emmet Club, of which Mr. Ledwith suit to recover the money. This proceeding was made necessary by the failure of the owners to protest on grievance day.

The town authorities settled by paying back a wards.

Special exercises were held yesterday by the children of the First Unitarian Sunday-school, com-memorative of the birthday of George Washington. Patriotic hymns were sung and two addresses were general. He was followed by G. Grosvenor Dawe, of tryington, who closed his remarks by telling of the effort which is being made to have December 12 next observed, as it marks the hundredth anniversary of the death of Washington.

The annual dinner of the 4th Separate Company Veterans' Association will be held to-morrow evening. A number of well-known speakers have been secured and a pleasant evening is expected.

PEEKSKILL

This will be a busy evening in Peekskill. The Dowey Social Club will hold a masquerade and civic half in Cryptic Hall. The village trustees will hold an important meeting at the Municipal Building and the Republicans will hold their village

LOSING NO TIME.

WESTCHESTER TROLLEY COMPANIES TO

the street, and there are many protests from restdents of Chester Hill.

On Saturday next the Tarrytown. White Plains
and Mamaroneck company, which has just suffered
a crushing defeat in its scheme to setze the Boston
Post Road, will try to get from its present terminus
as White Plains to Mount Vernon by asking for a
tranchise in East Chester. The hearing will be before the Highway Commissioner. John J. Creavy, in
the town rooms. Tuckahoe, at 10 o'clock in the forenoon. On the following Saturday, March 4, Mr.
Creavy will give a hearing to the New-York Westchester and Connecticut Traction Company, a rival
line, which asks for the same route. The traction
company has more assurance than all of the other
corporations combined, as it claims that the Commissioners have authority to grant to two compamies the right to run trolley lines on the same street.
Saturday, March i will also be an interesting day
in Rye. At 10 o'clock the Supreme Court Commissioners appointed to decide on the use of the streets
by the Port Chester Electric Company will meet in
the Lyceum Building.

John Zegwens, the man who on Saturday shot
